*Specifications listed are for Small video (i.e. 320x240). Large video (i.e. 640x480) requires a 3.2 GHz Pentium® 4 with HT and 1024x768 High Color (16 bit).

**TheRecord Player requires DirectX® 9 and Windows Media® Player 9 to be installed when using Windows 2000.

NOTE: As with any software there are hardware and software requirements which need to be in place prior to installing and using TheRecord software. While this list shows the recommended system requirements, it is important to be aware that using additional programs may require a higher specification.

TheRecord Player is a **FREE** program available for download from the FTR web site that court administrators, judges, lawyers, court monitors and clerks, law enforcement officials and transcribers can use to review, play back, share and copy audio/video proceedings captured by an FTR recording solution—all without fast forwarding or rewinding a single cassette.

Although its audio/video play back features are the most advanced available, TheRecord Player's "tape recorder-style" features are easy to understand and use. Users have complete control over the audio/video play back process. They can choose to review an entire audio/video proceeding, or select specific, relevant segments. They can also increase or decrease the master volume, or the volume of individual channels, as well as turn individual channels on or off as required.

TheRecord Player eliminates the need to rewind and fast-forward cassettes, and does away with tape recorder maintenance problems forever. Download it **FREE** from the FTR web site at www.fortherecord.com.

Versatile Features That Help You Improve Productivity

Benefits

- Windows Vista, 2000, XP compatible.
- FREE download from FTR web site – www.fortherecord.com.
- Copy specific segments or entire audio/video records onto CD or other high-capacity digital media.
- Interchangeable skins - use either TheRecord Player or FTR PlayerPlus style interface & controls.
- Excellent play back sound quality.
- Electronic playback from anywhere within the court network or an FTP site.
- Precise time-referencing feature eliminates inaccurate index numbers.
- Select and save a specific range of audio/video.
- Compliant with accessibility requirements for disabled users (Section 508 in USA).

Ease of Use

- "Tape-recorder" style interface.
- Direct access to specific audio/video without rewinding or fast forwarding.
- 4-channel isolation including independent control of playback volume for each channel.
- Adjust playback speed with no change in the pitch.
- No more tape recorder reliability problems.
- Complete foot pedal control for hands- free navigation.

How TheRecord Player Helps You Function More Efficiently

ForTheRecord®

VERSATILE!

Court Administrators

- Copy and distribute audio/video quickly and efficiently.
- Decrease archive media and related storage space costs.
- Access specific and relevant portions of testimony at the touch of a button.

Court Clerks and Electronic Court Reporters (ECR)

- Play back audio/video without interrupting recording.
- Use with TheRecord Annotator™ (*sold separately*) to facilitate dynamically linked note-taking.

Transcriptionists

- Play back audio/video over a network or via an FTP site.
- Locate required audio/video quickly.
- Complete speed and individual channel volume control.
- Isolate channels to hear all participants clearly.

- New Compact View provides popular controls through a more compact interface.
- Control playback via a compatible foot control for hands-free navigation.

Judges and Lawyers

- Review recorded proceedings and testimony in court or chambers.
- Quickly access relevant portions of testimony.

Law Enforcement Officials

- Efficiently share relevant content with other members within the department.
- Easily save specific recorded portions of interviews to share with attorneys.
